Quotes from Year 12 students at Parmiter's school, where Heidi gives a presentation every year.

Heidi is an inspirational speaker; I think it's great that she goes into schools to talk about her life and not only the difficulties she faces, but how she overcomes them and moves forward.

Heidi is very engaging with a great sense of humour.

I was unaware of what challenges someone with cerebral palsy faces on a daily basis, and Heidi has given me a greater understanding on this.

She is a very positive speaker and a great role model who gives a different perspective on life that most of us are unaware of.
